Swatch Girls Pro France 2013

ASP Women's 6 Star Event
21-25-August 2013, Hossegor – Seignosse, France

Spring in the air and the waters around south-west France warming with every coming swell, thoughts turn towards the most exciting surf event of the European summer season – The Swatch Girls Pro France 2013.

The idea of staging an ASP six-star rated event for the best female surfers in the world in Europe's surfing capital came to fruition in 2010, when the inaugural Swatch Girls Pro France was staged at les Bourdaines beach, Seignosse, crowning **Stephanie Gilmore** as event champion. The concept behind the SGPF's inception was to come to Europe's surfing Mecca, giving the girls the opportunity to showcase their skills in the world's best beachbreaks, in a top class event offering the best hospitality, facilities and organisation.

Interview with Mick Fanning

I met the three time world champion Mick Fanning during the Press Conference one day before the beginning of the Quiksilver Pro France's waiting period started.

Max: Yeah Mick, you got four wins here.. Are you ready for the fifth ?

Mick: Yeah, yeah... You know, anytime that I come here to France it's so exciting... You never know what it happens here, but most things go right and it's lucky for me. I just find myself from the winning's day... Four times is just pretty stark.

I remember the first time.. How would you describe the spots from here like those from Hossegor?

You know, when the waves are good, they 're really good. But it can be difficult. Some days you can be on the wrong tide or the changing tide... yeah life can be really hard... You just have to battle thru day's conditions and hope there will be good condition somewhere in the event. But just the tide can be so big, it can be difficult.

Top Tips for your First Bali Surf Trip!

Photo: Red Bull Content Pool

Bali, the 'Island of the Gods', is quite literally surf paradise: the water's warm, the waves are plentiful and consistent, the parties are pumping, everyone seems to be beautiful, the food is delicious and cheap, the landscape is gorgeous, and cruising around small roads through the rice paddies on a scooter in the sunset is just as much fun as it sounds.

Bali is a pilgrimage that every surfer should make at least once in their lives, so are some tips to help you make the most of your first trip.

1. Visas

Bali's visa regulations seem to be constantly changing, and can be a total headache; it's best to check current the rules with the Indonesian embassy in your country before travelling. Bali now offers free 30 day on arrival visas to citizens of many

SEO is the process of affecting the online visibility of a website or a web page in a web search engine's results—often referred to as “natural”, “organic”, or “earned” results. SEO considers how search engines work, the computer programmed algorithms which dictate search engine behavior, what people search for, the actual search terms or keywords typed into search engines, and which search engines are preferred by their targeted audience. So we make possible that our Online Magazine rank optimally in the search engines and make possible to be reached faster by SurfingSport Fans.
